

June 12, 2009

To: Parents of Sophomore, Junior and Senior Classes

From: John Tchou, SAT Program Director

The school year is coming to an end. The last official SAT testing for this school year was on June 6. We at St. Joe feel that the SAT course offered this year has been successful. We expect that the overall SAT scores for all Juniors will increase by a good margin. We hope that the continuation of the same SAT course for the upcoming year will show even better results.

More good news on our SAT program. St. Joe is offering a 6-week (10 sessions) SAT classes for all Seniors and Juniors to get ready for the upcoming PSAT and SAT testing in October. By all means, Sophomores are also welcome.

This will be the last opportunity for the Seniors-to-be to increase their SAT scores before college admission and to qualify for higher student aid. I will be conducting SAT classes on campus two sessions a week (each session lasting two-hours). There will be slight amount of reading and math homework per week. I charge \$450 per student and the fee includes all books and handouts.

I have been tutoring high school students for SAT preparation in the Medford area since 1989. My successful SAT tutoring philosophy is to teach the students how to think, how to evaluate and how to analyze problems. I also teach students how to pick out important keys which will point them towards the proper solutions. I teach them how to extend their thinking process using proper strategies and techniques covering all cases and conditions. I review the very basic materials to the students without resorting to tricks or wild guessing. Through the years, my students have successfully improved their scores, some of them drastically higher.

The classes will start on about the 4<sup>th</sup> week of June. The program may last more than 6 weeks for unforeseeable circumstances. The extra weeks may provide for make-ups or missed classes.

If anyone is interested, please fill out the included registration form with the payment as soon as you can. An adequate number of students must participate to ensure the success of the program. Telephone numbers and e-mail addresses appear on the registration form. Please feel free to call or contact me at anytime.

Your principal Mrs. Domenico and her staff, totally endorse the program. It's a win-win situation all around.
