Catholic
Education,
Every Student,
Every Day”*

2009-2010 SJHS TECH. CLUB

This year, the tech club will be a major role in the Saint Joseph School Society. The tech club will be videoing and taking pictures at all of Saint Joseph's major events. We will be creating this year's Senior Farewell Video. Fundraisers will be held throughout the year to help raise money for equipment and projects. Tech club will also be a learning experience as Mr. Falciani will teach us how a computer works and what the different components consist of. You can also learn basic computer skills all the way to expert computer building. This is a great course that will encompass many aspects of computer science.
